## 1. WORK DONE TODAY

| No. | Activity | Location / Area / Villa | Today % | To-date % | Remarks |
|-----|----------|-------------------------|---------|-----------|---------|
| 1   |          |                         |         |           |         |
| 2   |          |                         |         |           |         |
| 3   |          |                         |         |           |         |
| 4   |          |                         |         |           |         |
| 5   |          |                         |         |           |         |
| 6   |          |                         |         |           |         |
| 7   |          |                         |         |           |         |
| 8   |          |                         |         |           |         |

## 2. MANPOWER

| Staff                  |  | Trades / Labour |   |
|------------------------|--|-----------------|---|
|                        |  |                 |   |
| TOTAL MANPOWER AT SITE |  |                 | 0 |

## 3. MACHINERY &amp; EQUIPMENT IN USE

| Item | Nos | Remarks (working / idle / breakdown) |
|------|-----|--------------------------------------|
|      |     |                                      |
|      |     |                                      |
|      |     |                                      |
|      |     |                                      |

## 4. KEY MATERIALS AT SITE

| Material | Unit | Opening Stock | Received Today | Consumed Today | Balance | Remarks |
|----------|------|---------------|----------------|----------------|---------|---------|
|          |      |               |                |                |         |         |
|          |      |               |                |                |         |         |
|          |      |               |                |                |         |         |
|          |      |               |                |                |         |         |

Balance auto-calculates: Opening + Received – Consumed. Report only key / bulk materials daily; full stock lives in the site stock book.

## 5. MATTERS AFFECTING PROGRESS (delays, shortages, weather impact)
